

REMARKS

In the Office Action mailed June 14, 2010, the Examiner objected to claim 1 because of a typographical error in part (c). Applicants have amended the claim to correct the error.

Claims 40-45 and 47-51 were rejected as being indefinite because the Examiner finds that the claim 40 is unclear for reciting “cleaving the fusion protein” without the recitation of using a Granzyme B protease. Applicants have amended claim 40 to clarify the claim. In addition to addressing the rejection to claims 40-45 and 47-51, Applicants believe that the amendment addresses the rejections of claim 47-50 for lack of antecedent basis for “the Granzyme B protease.”

If the Examiner believes it to be helpful, he is invited to contact the undersigned representative by telephone at 312 913 0001.

Respectfully submitted,
